BUSINESS CASE WHITEPAPER · FND-006

Non-resident founder route map

Plan the work you can do remotely before arranging travel.

The decision

A non-resident founder is considering travel before knowing which steps require attendance.

What the fee buys

We map one founder's country of residence to published formation and banking requirements, with remote and in-person steps flagged.

When to commission

Buy before committing travel expenditure when several formation and banking dependencies remain open.

SCOPE AND OPERATING CASE

How the work changes the decision

Starting position

A founder can attend one appointment during a planned UK visit.

In this illustrative case

Identify the proposed provider, request its current attendance requirement and keep the travel date provisional.

Inputs and ownership

Give your country of residence, intended UK activity and any travel constraints.

1. Confirm residence
2. Compare published routes
3. Flag attendance conditions

Using the handover

Use the route map to organise work and question eligibility before committing to a timetable.

An alternative to buying

Ask the chosen provider directly when only one attendance question remains.

INVESTMENT AND EVALUATION

Test the case before approving spend

£449 GBP · one-time catalogue fee excluding applicable VAT

Full cost to the buyer

Government, agent, address and bank charges are separate where applicable. Include the cost of preparing inputs, reviewing the output and implementing any subsequent changes.

A time-only comparison

At an illustrative £40 per staff hour, the fee alone equals 11.22 hours. Replace £40 with your own fully loaded hourly cost. Divide the full incremental cost by that rate to find your break-even hours. Count only effort you can reasonably avoid. This illustration predicts no saving.

What to measure

Record how many required steps have a confirmed location, owner and provider condition. Record a baseline before work begins. Use the same scope and definition at follow-up, and note changes outside this service.

Timing and dependencies

Pay upfront at the external checkout. You can prepare immediately. We track clearance and start intake when payment clears, which can take up to seven business days depending on the payment system. The estimate after start and receipt of complete inputs is 3–7 working days.

Approval test

Buy before committing travel expenditure when several formation and banking dependencies remain open. Assign an owner for the handover and a date for checking the measure. If the inputs or owner are missing, defer the purchase.

Basis: Routine Works service specification FND-006, GBP catalogue fee and an illustrative working case. View service scope.
